

**BULLETIN NO. 13/14 - 003****DATE: 23 SEP 13****TO: All ISR Racing Affiliates****SUBJECT: Four-stroke classifications in Drag Racing**

At the present time, four-stroke powered snowmobiles in Drag Racing have been classified into existing Drag Racing classes based upon the performance of each model.

The classification of four-strokes in Drag Racing is done by the 4-Stroke Classification Committee made up of the snowmobile manufacturers and ISR representatives.

Any four-stroke powered snowmobile that competes in any Drag Racing class must be assigned to that class by the Classification Committee. If a particular model or model variation is not classified, it is not allowed to compete.

To date, the following four-stroke classifications have been assigned:
